PAL01

PRODUCT SHEET

Last update:
04/13/2023

FEATURES

It protects the operator from direct contact with the moving parts and from the possible projections of chips and coolant.

The scheme, in aluminum and polycarbonate, is sliding on polyethylene skids, with supporting counterweights inside the supporting column, to facilitate movement and support its weight.

Complete with safety microswitch.

1. Protective adjustable shield - in polycarbonate and aluminium profiles
2. Sliding block to support the shield
3. Supporting guideway - in extruded aluminium - equipped with sliding system on tempered and rectified steel guides-bearings
4. Counterweights
5. Adjustable shield connection - in pressed steel
6. Antivibration
7. Safety microswitch with separated actuator - n. 2 NC contacts

Shelter with a vertically sliding protective panel with manual opening.

CODE	A	B	C	KG
PAL 01/780	700	800	2000	30,0
PAL 01/S	-	-	-	-

Our protections comply with the machinery directive 2006/43/CE
