FEATURES

1. Steel anchorage stirrup
2. Rotation pins
3. Arms - made of steel
4. Shield - in aluminum and shockproof, oil resistant plastic material

Swinging opening safety guard with double arm for the operator protection during working.

Protects the operator from direct contact with rotating components of the chuck and from the projection of shavings and lubricant-coolant. Attachable in front of the longitudinal carriage.

The shield is completely adjustable and, thanks to its configuration, allows the perfect view of the workpiece also from above.

Without safety microswitch.
