FEATURES

Protects the operator from direct frontal contact with rotating components of the spindle, of the tool and from projection of shavings and lubricant-coolant. The main feature is the telescopic shield, vertically adjustable (refer to dimensions "B" and "C") and positionable along arm 3.

The shield opens laterally with 180° rotary movement, allowing easy access for operations of tool change. The stirrup allows a solid anchorage at the drill structure.

Complete with pre-wired safety microswitch.

1. Anchorage stirrup - in pressed steel
2. Self-bearing main box with integrated microswitch - 180° rotation - n. 2 NC contacts
3. Shield support vertical arm - in steel hexagon
4. Adjustment knob for arm-shield assembly with respect to the microswitch main box
5. Adjustment shield knob with respect to the support arm
6. Semi-octagonal polycarbonate front shield
7. "C" shaped rear shield

Safety guard with telescopic shield and vertical adjustment, extremely versatile for the protection of the spindle and of the working tool. Equipped with 180° rotation and safety microswitch.
