## PRODUCT SHEET

Last update:  
04/12/2023

Kit for direct control of Simple Machines (e.g.: grinders). It consists of: thermoplastic case with three-pole magnetothermal safety switch with minimum voltage coil, not suitable for connection with any safety microswitches of guards and/or pushbuttons as it has not a very low voltage circuit (e.g.: 24 V). Prepared for padlock closure. Panel for machines with Max absorption = 7,5KW at a voltage of 400V.

- On request: version for machines with Max absorption up to 28KW (when asking for an offer / placing and order, notify machine absorption).

BOX DIMENSION (W x H x D): 100x170x130mm

Our protections comply with the machinery directive 2006/43/CE
